

ISSUE1: x/x answered is not progressing

The screenshot shows a career exploration question for a 3D Artist. The question text is: "You are presenting a character model to a client, but they are unhappy with the way the character's armor looks and demand drastic changes. You disagree with their feedback, as the current armor design matches the approved concept art. What do you do?" There are four options:

- A**: Respectfully explain your design choices, but offer to revise the armor to meet their expectations. *✓ Correct Answer*
- B**: Refuse to make the changes and insist the armor matches the approved concept art.
- C**: Immediately make all the changes the client requests, even if they don't align with the concept art.
- D**: Ignore the client's feedback and submit the model as it is.

Below the options is a purple button labeled "Next Question". At the bottom of the screen, a message says: "Students are answering on their devices. Monitor their progress on the leaderboard."

ISSUE2: There were 10 question in question_set; screen shows 9.

The screenshot shows a "Game Over" summary screen. It displays the following statistics:

- TOTAL SCORE**: 108
- ACCURACY**: 100%
- QUESTIONS ANSWERED**: 9/9

Below the summary, a leaderboards section shows the student's performance:

Rank	Player	Score
1st Place	student [You]	108 POINTS

At the bottom of the screen, a message says: "Great game! Keep playing to unlock more pathkeys and climb the leaderboard. 🏆"

ISSUE3: Pathkey was awarded but Summary screen (above) did not update Student but Dashboard shows key awarded (below)
